

I have been a loyal listener for over a yr now. I absolutely think it is awesome, as far as the traffic and weather channels that now have been featured on XM....this is a sole reason along with many others that make my morning drive enjoyable. When I am make travels across the country...and around town I am a more educated and drive with more awareness of whats going on in my community. It is extremely accurate and non stop, provided 24 hrs a day-as a paying consumer this is a great benefit!! You cant get this through your local stations and when I do half the time the information is a "day late and a dollar short."

I can choose what I want to listen to and I am not subject to just the channels that are only available in my market due to demographics.....it's great for all members of the family and exetremely informative-it's like having cable tv in your car but better.....its worth the monthly cost and gives the listener the right to choose!! XM for life!
